PORTFOLIO

PROFILE

Communication & Multimedia Design student at Avans University of Applied Sciences, currently following the Artificial Intelligence minor. I build interactive web experiences and game prototypes where design, code and 3D meet, and I completed a frontend internship at LiveWall in 2026. Looking for part-time work alongside my studies, a graduation internship, or a junior creative developer / frontend role.

EXPERIENCE

- Feb 2026 – Jul 2026 **Frontend Developer (internship)** · LiveWall | United Playgrounds, Tilburg · hybrid
- Worked on interactive campaign sites and branded digital experiences for clients.
 - Built web pages and components with React, Next.js and Vue, styled with Tailwind CSS.
 - Brought 3D models and creative concepts into the browser with Three.js / WebGL.
- Jan 2025 – present **3D modelling & 3D printing (freelance)** · Riego Realm, Tilburg
- Side business: 3D models in Blender and 3D prints for clients, handling contact, quotes and delivery myself.
- Sep 2025 – present **Crew Member (part-time)** · McDonald's, Tilburg
- Fast-paced kitchen work at peak volume: teamwork, precision and time pressure.
- Mar 2025 – Sep 2025 **Meal delivery (part-time)** · Thuisbezorgd.nl, Tilburg
- Delivered meal orders independently: on time, reliable and friendly with customers.

PROJECTS

- Unity C#
Blender
- AR You Ready?** rocheefaverey.com/projects/ar-you-ready ↗
- Speculative game about social isolation in the Netherlands in 2050, made for the Planbureau voor de Leefomgeving (PBL). Design and development; focus on AR UX and narrative systems.
- Unity C#
Blender
- Ocean Cleaner** rocheefaverey.com/projects/ocean-cleaner ↗
- Underwater cleaning simulator inspired by power-wash games, teaching ocean conservation through hands-on gameplay.
- Python OpenCV
- Smart Parking Vision** rocheefaverey.com/projects/smart-parking ↗
- Computer-vision prototype for the TU Delft Science Center that detects free parking spots; my role was computer vision and prototyping.

EDUCATION

- 2023 – 2028 **Bachelor Communication & Multimedia Design (expected 2028)** · Avans University of Applied Sciences
- Sep 2026 – Jan 2027 **Minor Artificial Intelligence (30 EC, in progress)** · Avans University of Applied Sciences, Breda
- Applied machine learning from problem to deployment: supervised, unsupervised and reinforcement learning, neural networks, transformers, AI ethics.
